

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Such activations, which I described in Issue 1, occurred throughout the 1960s and the early 1990s, and they will become increasingly frequent and powerful again as this decade unfolds. Specifically, these activations will be centred on the Uranus-Neptune sextile (a sixty-degree aspect) and its extraordinary aspects with Pluto in Aquarius. This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

its way, although Pluto's retrograde out of Aquarius into Capricorn in September will tell us that we will have to wait for the full download because of our need to revisit how we structure our physical lives and societies so that we can bring them more fully into alignment with our spiritual values.

After October, Uranus and Neptune will start to move out of sextile again, having primed us. It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

Our commitment to this process is crucial. A golden age of Aquarius is not guaranteed without us learning the lessons presented by Pluto in Aquarius and overcoming the apathy and distraction institutionalised by mainstream society that could derail us. The lessons of Pluto in Aquarius will be with us until 2043. It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. A trine here is encouraging – we can do it if we apply ourselves. However, our best chance will be before 2030 while Uranus and Neptune are in aspect with each other and Pluto.

Today, we can actively contribute to this transformation of collective consciousness by forming groups and networks committed to building spiritual communities founded on spiritual values, such as love, peace, freedom, and compassion. Enlightened communities where we can recover from the takeover of our consciousness and reconnect with our true spiritual nature and the magic of life. To empower yourself for this task, meditate and cultivate a strong connection with your spiritual light on a daily basis and ground it into your every physical action. The more you stay present in your light, the more you will be able to transmute any resistance to embodying your light and playing your part in the Aquarian Awakening. Consider the role you might play in 2025 and 2026, and what you need to do to prepare for this. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?

SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

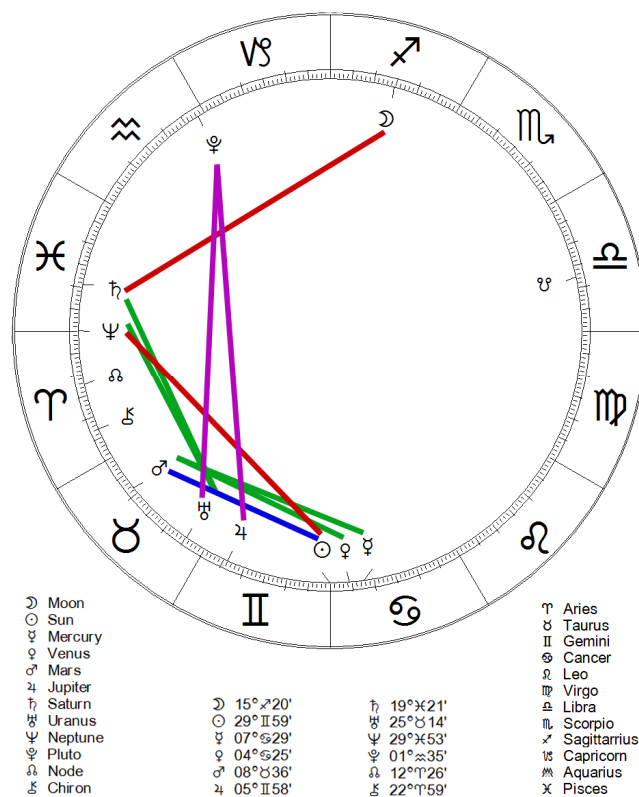

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

Solstice, 20 June 2024

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. Interestingly, Venus and Mercury both form a sextile to Mars in Taurus, while the Sun forms an exact septile to

it. A septile (not to be confused with the more common sextile), is a special aspect representing a radical shift of consciousness that compels collective action and orientation towards wholeness. Mars in Taurus is focusing Sun, Venus, and Mercury on the creation, gathering, and provision of resources for the Aquarian age (Uranus in Taurus) that empower the embodiment of our spiritual truth (Moon, ruler of Cancer, in Sagittarius square Saturn in Pisces). The Sun's exact square to Neptune in the last degree of Pisces leaves no doubt that the time is now and that we now need to embody and shine our spiritual light to honour ourselves and the greater whole.

Uranus and Neptune are, of course, sextile, promoting the collective spiritual awakening that this newsletter is empowering and celebrating. A sextile from Uranus to Saturn in Pisces urges us to break through our illusions and realign our physical structures to serve the Aquarian vision, while a trine from Uranus to Pluto in Aquarius confirms the message and seals the deal. Pluto in Aquarius is of course a major player in the Aquarian Awakening. Pluto's trine to Jupiter in Gemini supports the understanding and communication of the Aquarian values.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at 12.30pm for a meditation and empowerment ceremony as part of a solar wave of light to mark the solar zenith at 1pm. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and how to take steps to create communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones. Bring friends, crystals, poems, songs, instruments, circle dances, and

your love and light! Let us bring back the Love, Light, Magic, and Beauty.

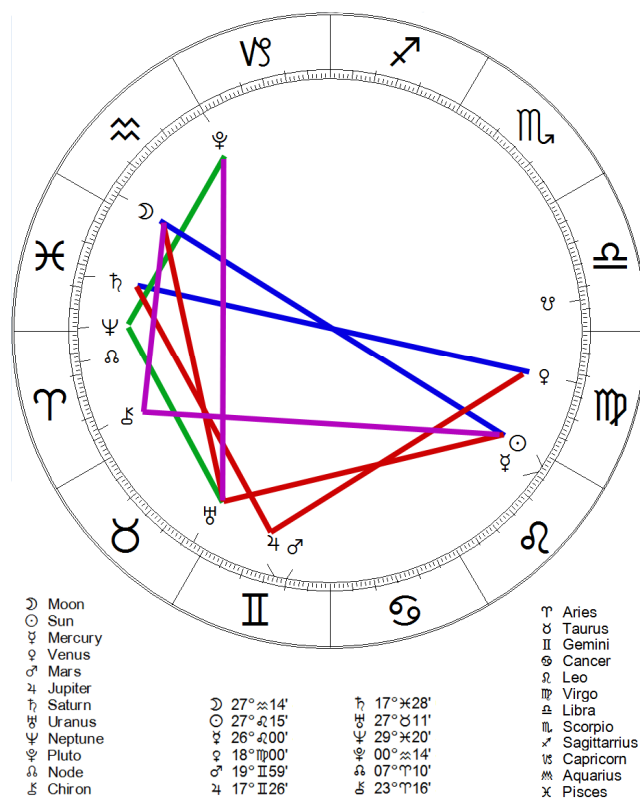

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The exact moment of the Solstice is 21.51 UK time, so please also link up in meditation at this powerful time, wherever you are. If you wish to join me for this, let me know.

AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

Aquarius Full Moon Chart, 19 August, 2024

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. Of course, this requires big healing, which we are all in need of having been born into an abusive and disempowering society that wants us to disconnect from our true spiritual nature. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

represents the expansion of consciousness that will carry us forward and it represents the archetypal teacher of wisdom, which we embody as light-filled communicators dedicated to world service. To activate Jupiter further, Mars joins it in a beautifully synchronistic conjunction, with both planets also at the same declination. This is very much a moment for expanding the mind and understanding and accepting our role as cocreative Aquarian light bringers, while seeding the collective archetypes for an awakened humanity. Remember that you are more powerful when present in your spiritual being.

The exact time of the Full Moon and the main focal point for meditation is 19:26 UK time. Please join us in a global meditation linkup at 19:00 UK time for at least 33 minutes. I will be leading a meditation group at Avebury Stone Circle for this time. If you would like to attend, you are most welcome and can email me directly at aquariantransfiguration@protonmail.com to let me know, or just turn up before 19:00. Otherwise, please join distantly, preferably from a sacred site or place of power, and connect in spirit as you contemplate the resolution of the astrological themes and messages and bring in the light. Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. A trine here is encouraging – we can do it if we apply ourselves. However, our best chance will be before 2030 while Uranus and Neptune are in aspect with each other and Pluto.

Today, we can actively contribute to this transformation of collective consciousness by forming groups and networks committed to building spiritual communities founded on spiritual values, such as love, peace, freedom, and compassion. Enlightened communities where we can recover from the takeover of our consciousness and reconnect with our true spiritual nature and the magic of life. To empower yourself for this task, meditate and cultivate a strong connection with your spiritual light on a daily basis and ground it into your every physical action. The more you stay present in your light, the more you will be able to transmute any resistance to embodying your light and playing your part in the Aquarian Awakening. Consider the role you might play in 2025 and 2026, and what you need to do to prepare for this. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?

SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

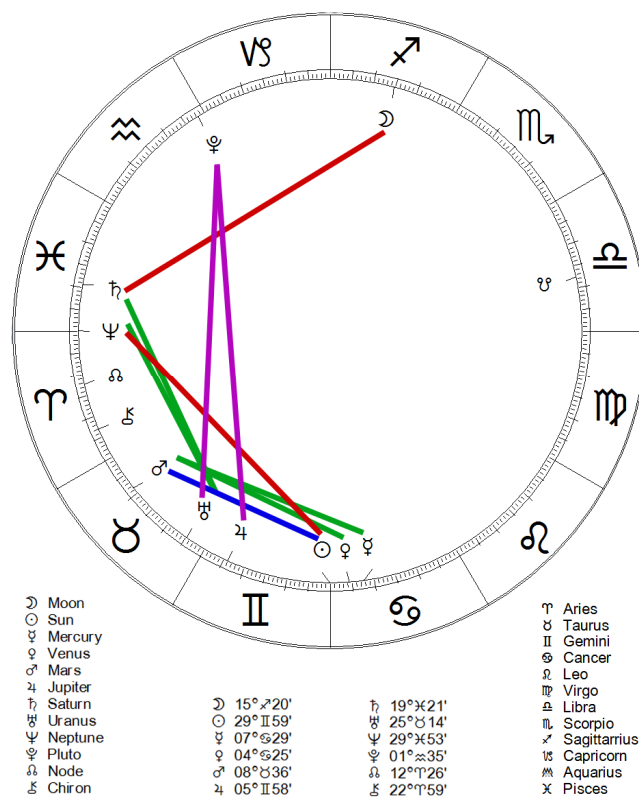

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

Solstice, 20 June 2024

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. Interestingly, Venus and Mercury both form a sextile to Mars in Taurus, while the Sun forms an exact septile to

it. A septile (not to be confused with the more common sextile), is a special aspect representing a radical shift of consciousness that compels collective action and orientation towards wholeness. Mars in Taurus is focusing Sun, Venus, and Mercury on the creation, gathering, and provision of resources for the Aquarian age (Uranus in Taurus) that empower the embodiment of our spiritual truth (Moon, ruler of Cancer, in Sagittarius square Saturn in Pisces). The Sun's exact square to Neptune in the last degree of Pisces leaves no doubt that the time is now and that we now need to embody and shine our spiritual light to honour ourselves and the greater whole.

Uranus and Neptune are, of course, sextile, promoting the collective spiritual awakening that this newsletter is empowering and celebrating. A sextile from Uranus to Saturn in Pisces urges us to break through our illusions and realign our physical structures to serve the Aquarian vision, while a trine from Uranus to Pluto in Aquarius confirms the message and seals the deal. Pluto in Aquarius is of course a major player in the Aquarian Awakening. Pluto's trine to Jupiter in Gemini supports the understanding and communication of the Aquarian values.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at 12.30pm for a meditation and empowerment ceremony as part of a solar wave of light to mark the solar zenith at 1pm. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and how to take steps to create communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones. Bring friends, crystals, poems, songs, instruments, circle dances, and

your love and light! Let us bring back the Love, Light, Magic, and Beauty.

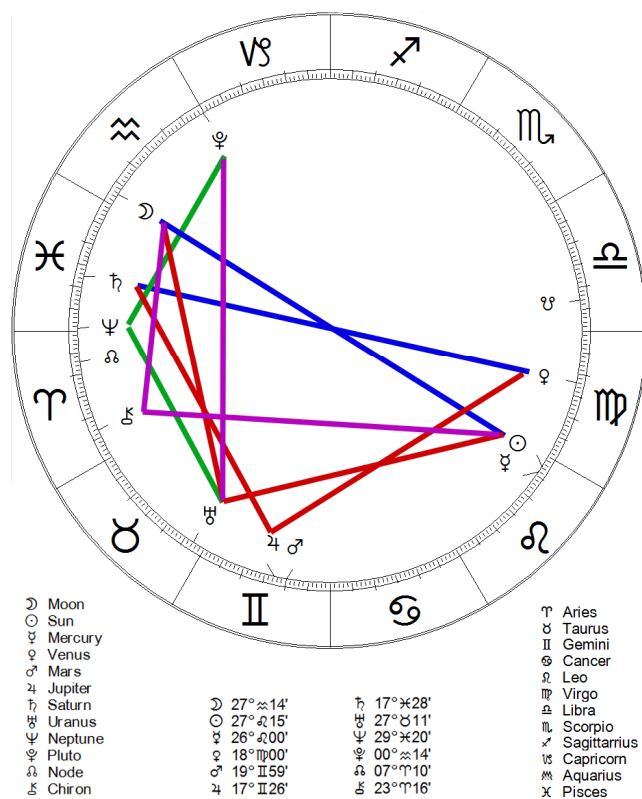

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The exact moment of the Solstice is 21.51 UK time, so please also link up in meditation at this powerful time, wherever you are. If you wish to join me for this, let me know.

AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

Aquarius Full Moon Chart, 19 August, 2024

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. Of course, this requires big healing, which we are all in need of having been born into an abusive and disempowering society that wants us to disconnect from our true spiritual nature. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

represents the expansion of consciousness that will carry us forward and it represents the archetypal teacher of wisdom, which we embody as light-filled communicators dedicated to world service. To activate Jupiter further, Mars joins it in a beautifully synchronistic conjunction, with both planets also at the same declination. This is very much a moment for expanding the mind and understanding and accepting our role as cocreative Aquarian light bringers, while seeding the collective archetypes for an awakened humanity. Remember that you are more powerful when present in your spiritual being.

The exact time of the Full Moon and the main focal point for meditation is 19:26 UK time. Please join us in a global meditation linkup at 19:00 UK time for at least 33 minutes. I will be leading a meditation group at Avebury Stone Circle for this time. If you would like to attend, you are most welcome and can email me directly at aquariantransfiguration@protonmail.com to let me know, or just turn up before 19:00. Otherwise, please join distantly, preferably from a sacred site or place of power, and connect in spirit as you contemplate the resolution of the astrological themes and messages and bring in the light. AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Such activations, which I described in Issue 1, occurred throughout the 1960s and the early 1990s, and they will become increasingly frequent and powerful again as this decade unfolds. Specifically, these activations will be centred on the Uranus-Neptune sextile (a sixty-degree aspect) and its extraordinary aspects with Pluto in Aquarius. This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

its way, although Pluto's retrograde out of Aquarius into Capricorn in September will tell us that we will have to wait for the full download because of our need to revisit how we structure our physical lives and societies so that we can bring them more fully into alignment with our spiritual values.

After October, Uranus and Neptune will start to move out of sextile again, having primed us. It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

Our commitment to this process is crucial. A golden age of Aquarius is not guaranteed without us learning the lessons presented by Pluto in Aquarius and overcoming the apathy and distraction institutionalised by mainstream society that could derail us. The lessons of Pluto in Aquarius will be with us until 2043. It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. Interestingly, Venus and Mercury both form a sextile to Mars in Taurus, while the Sun forms an exact septile to

it. A septile (not to be confused with the more common sextile), is a special aspect representing a radical shift of consciousness that compels collective action and orientation towards wholeness. Mars in Taurus is focusing Sun, Venus, and Mercury on the creation, gathering, and provision of resources for the Aquarian age (Uranus in Taurus) that empower the embodiment of our spiritual truth (Moon, ruler of Cancer, in Sagittarius square Saturn in Pisces). The Sun's exact square to Neptune in the last degree of Pisces leaves no doubt that the time is now and that we now need to embody and shine our spiritual light to honour ourselves and the greater whole.

Uranus and Neptune are, of course, sextile, promoting the collective spiritual awakening that this newsletter is empowering and celebrating. A sextile from Uranus to Saturn in Pisces urges us to break through our illusions and realign our physical structures to serve the Aquarian vision, while a trine from Uranus to Pluto in Aquarius confirms the message and seals the deal. Pluto in Aquarius is of course a major player in the Aquarian Awakening. Pluto's trine to Jupiter in Gemini supports the understanding and communication of the Aquarian values.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at 12.30pm for a meditation and empowerment ceremony as part of a solar wave of light to mark the solar zenith at 1pm. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and how to take steps to create communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones. Bring friends, crystals, poems, songs, instruments, circle dances, and

your love and light! Let us bring back the Love, Light, Magic, and Beauty.

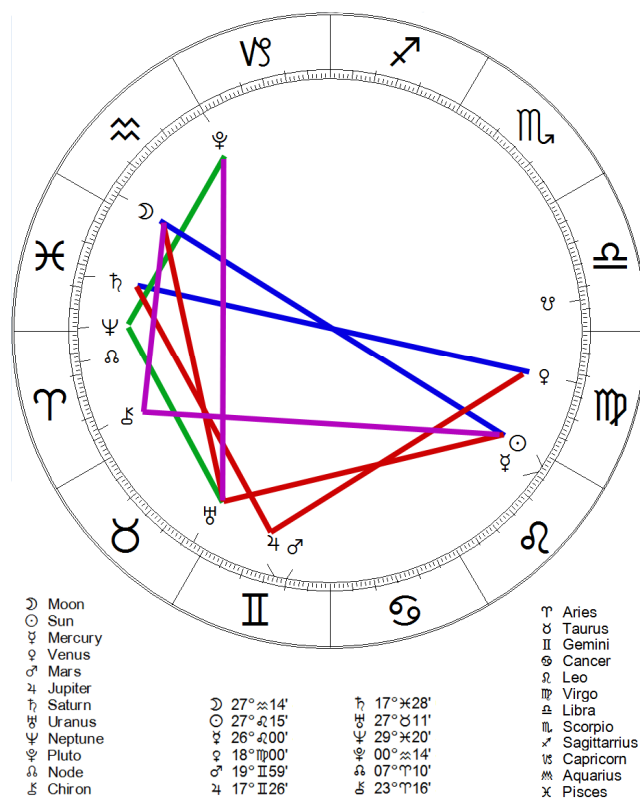

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The exact moment of the Solstice is 21.51 UK time, so please also link up in meditation at this powerful time, wherever you are. If you wish to join me for this, let me know.

AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

Aquarius Full Moon Chart, 19 August, 2024

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. Of course, this requires big healing, which we are all in need of having been born into an abusive and disempowering society that wants us to disconnect from our true spiritual nature. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

represents the expansion of consciousness that will carry us forward and it represents the archetypal teacher of wisdom, which we embody as light-filled communicators dedicated to world service. To activate Jupiter further, Mars joins it in a beautifully synchronistic conjunction, with both planets also at the same declination. This is very much a moment for expanding the mind and understanding and accepting our role as cocreative Aquarian light bringers, while seeding the collective archetypes for an awakened humanity. Remember that you are more powerful when present in your spiritual being.

The exact time of the Full Moon and the main focal point for meditation is 19:26 UK time. Please join us in a global meditation linkup at 19:00 UK time for at least 33 minutes. I will be leading a meditation group at Avebury Stone Circle for this time. If you would like to attend, you are most welcome and can email me directly at aquariantransfiguration@protonmail.com to let me know, or just turn up before 19:00. Otherwise, please join distantly, preferably from a sacred site or place of power, and connect in spirit as you contemplate the resolution of the astrological themes and messages and bring in the light. AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Such activations, which I described in Issue 1, occurred throughout the 1960s and the early 1990s, and they will become increasingly frequent and powerful again as this decade unfolds. Specifically, these activations will be centred on the Uranus-Neptune sextile (a sixty-degree aspect) and its extraordinary aspects with Pluto in Aquarius. This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

its way, although Pluto's retrograde out of Aquarius into Capricorn in September will tell us that we will have to wait for the full download because of our need to revisit how we structure our physical lives and societies so that we can bring them more fully into alignment with our spiritual values.

After October, Uranus and Neptune will start to move out of sextile again, having primed us. It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

Our commitment to this process is crucial. A golden age of Aquarius is not guaranteed without us learning the lessons presented by Pluto in Aquarius and overcoming the apathy and distraction institutionalised by mainstream society that could derail us. The lessons of Pluto in Aquarius will be with us until 2043. It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. A trine here is encouraging – we can do it if we apply ourselves. However, our best chance will be before 2030 while Uranus and Neptune are in aspect with each other and Pluto.

Today, we can actively contribute to this transformation of collective consciousness by forming groups and networks committed to building spiritual communities founded on spiritual values, such as love, peace, freedom, and compassion. Enlightened communities where we can recover from the takeover of our consciousness and reconnect with our true spiritual nature and the magic of life. To empower yourself for this task, meditate and cultivate a strong connection with your spiritual light on a daily basis and ground it into your every physical action. The more you stay present in your light, the more you will be able to transmute any resistance to embodying your light and playing your part in the Aquarian Awakening. Consider the role you might play in 2025 and 2026, and what you need to do to prepare for this. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?

SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

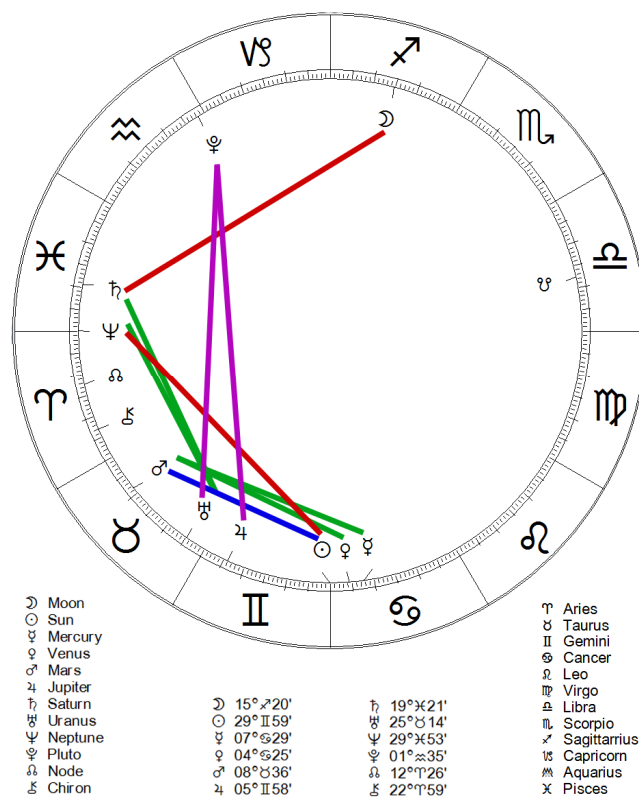

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

Solstice, 20 June 2024

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. Of course, this requires big healing, which we are all in need of having been born into an abusive and disempowering society that wants us to disconnect from our true spiritual nature. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

represents the expansion of consciousness that will carry us forward and it represents the archetypal teacher of wisdom, which we embody as light-filled communicators dedicated to world service. To activate Jupiter further, Mars joins it in a beautifully synchronistic conjunction, with both planets also at the same declination. This is very much a moment for expanding the mind and understanding and accepting our role as cocreative Aquarian light bringers, while seeding the collective archetypes for an awakened humanity. Remember that you are more powerful when present in your spiritual being.

The exact time of the Full Moon and the main focal point for meditation is 19:26 UK time. Please join us in a global meditation linkup at 19:00 UK time for at least 33 minutes. I will be leading a meditation group at Avebury Stone Circle for this time. If you would like to attend, you are most welcome and can email me directly at aquariantransfiguration@protonmail.com to let me know, or just turn up before 19:00. Otherwise, please join distantly, preferably from a sacred site or place of power, and connect in spirit as you contemplate the resolution of the astrological themes and messages and bring in the light. AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Such activations, which I described in Issue 1, occurred throughout the 1960s and the early 1990s, and they will become increasingly frequent and powerful again as this decade unfolds. Specifically, these activations will be centred on the Uranus-Neptune sextile (a sixty-degree aspect) and its extraordinary aspects with Pluto in Aquarius. This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

its way, although Pluto's retrograde out of Aquarius into Capricorn in September will tell us that we will have to wait for the full download because of our need to revisit how we structure our physical lives and societies so that we can bring them more fully into alignment with our spiritual values.

After October, Uranus and Neptune will start to move out of sextile again, having primed us. It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

Our commitment to this process is crucial. A golden age of Aquarius is not guaranteed without us learning the lessons presented by Pluto in Aquarius and overcoming the apathy and distraction institutionalised by mainstream society that could derail us. The lessons of Pluto in Aquarius will be with us until 2043. It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. A trine here is encouraging – we can do it if we apply ourselves. However, our best chance will be before 2030 while Uranus and Neptune are in aspect with each other and Pluto.

Today, we can actively contribute to this transformation of collective consciousness by forming groups and networks committed to building spiritual communities founded on spiritual values, such as love, peace, freedom, and compassion. Enlightened communities where we can recover from the takeover of our consciousness and reconnect with our true spiritual nature and the magic of life. To empower yourself for this task, meditate and cultivate a strong connection with your spiritual light on a daily basis and ground it into your every physical action. The more you stay present in your light, the more you will be able to transmute any resistance to embodying your light and playing your part in the Aquarian Awakening. Consider the role you might play in 2025 and 2026, and what you need to do to prepare for this. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?

SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

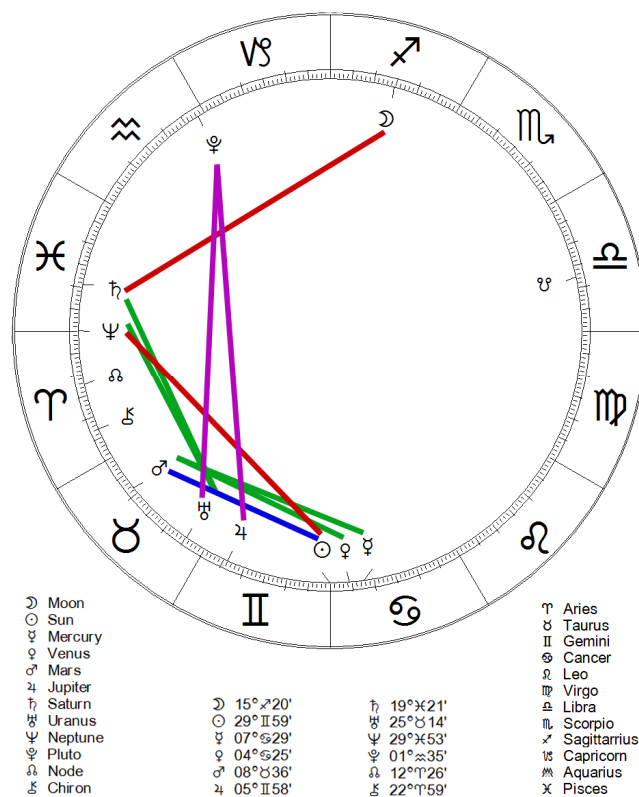

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

Solstice, 20 June 2024

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. Interestingly, Venus and Mercury both form a sextile to Mars in Taurus, while the Sun forms an exact septile to

it. A septile (not to be confused with the more common sextile), is a special aspect representing a radical shift of consciousness that compels collective action and orientation towards wholeness. Mars in Taurus is focusing Sun, Venus, and Mercury on the creation, gathering, and provision of resources for the Aquarian age (Uranus in Taurus) that empower the embodiment of our spiritual truth (Moon, ruler of Cancer, in Sagittarius square Saturn in Pisces). The Sun's exact square to Neptune in the last degree of Pisces leaves no doubt that the time is now and that we now need to embody and shine our spiritual light to honour ourselves and the greater whole.

Uranus and Neptune are, of course, sextile, promoting the collective spiritual awakening that this newsletter is empowering and celebrating. A sextile from Uranus to Saturn in Pisces urges us to break through our illusions and realign our physical structures to serve the Aquarian vision, while a trine from Uranus to Pluto in Aquarius confirms the message and seals the deal. Pluto in Aquarius is of course a major player in the Aquarian Awakening. Pluto's trine to Jupiter in Gemini supports the understanding and communication of the Aquarian values.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at 12.30pm for a meditation and empowerment ceremony as part of a solar wave of light to mark the solar zenith at 1pm. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and how to take steps to create communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones. Bring friends, crystals, poems, songs, instruments, circle dances, and

your love and light! Let us bring back the Love, Light, Magic, and Beauty.

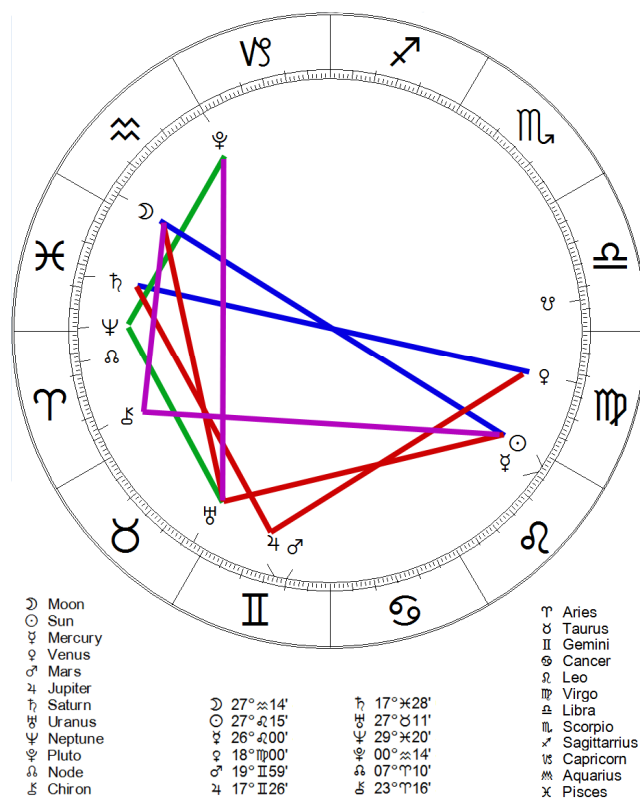

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The exact moment of the Solstice is 21.51 UK time, so please also link up in meditation at this powerful time, wherever you are. If you wish to join me for this, let me know.

AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

Aquarius Full Moon Chart, 19 August, 2024

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the second issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Such activations, which I described in Issue 1, occurred throughout the 1960s and the early 1990s, and they will become increasingly frequent and powerful again as this decade unfolds. Specifically, these activations will be centred on the Uranus-Neptune sextile (a sixty-degree aspect) and its extraordinary aspects with Pluto in Aquarius. This Uranus-Neptune sextile is the same aspect that oversaw the transformation of collective consciousness in the 1960s while Pluto was in conjunction with Uranus. Neptune is the planet of spirituality and Uranus is the planet of awakening, so the Uranus-Neptune sextile represents spiritual awakening. The aspecting of Pluto to Uranus in the 1960s is repeated now, but as a trine to Uranus rather than a conjunction. Pluto's involvement stimulates powerful transformation.

OVERVIEW FOR 2024

The key focus for this year is the applying sextile between Uranus and Neptune. As we enter June, the sextile will be in a 4-5 degree orb (low intensity). The most sensitive of us may feel a gradual stirring, but it won't be until the second half of August when this becomes more noticeable, particularly when the Aquarius Full Moon of August 19 will **exactly square** Uranus. The precision of this square at the **exact time** of the Full Moon is no accident. Like the alignments that are coming in 2025 and 2026, there is a sense of divine orchestration with these Aquarian activations.

During August, the Uranus-Neptune sextile will have an orb of 2-3 degrees. Then, between September and October, the sextile will be in 1-2 degree orb and we should have a clear awareness that spiritual change is on

its way, although Pluto's retrograde out of Aquarius into Capricorn in September will tell us that we will have to wait for the full download because of our need to revisit how we structure our physical lives and societies so that we can bring them more fully into alignment with our spiritual values.

After October, Uranus and Neptune will start to move out of sextile again, having primed us. It won't be until July 2025 that the sextile will move back into a 1-2 degree orb, to be followed by the first exact perfection of the sextile in August 2025, when both planets will be in the same degree of their signs, maximising the activation of the collective consciousness with the exact sextile. Therefore, we can see that spiritual attunement and preparation for spiritual awakening is the key message for this year that we should observe and follow with diligence. Come September 2024, with Pluto back in Capricorn for two months, we really need to start making proactive physical changes to our lives, networks, communities, and societies to reflect our awakening spirituality and prepare us for anchoring in the Aquarian Age in 2025 and 2026 when the Uranus-Neptune sextile intensifies and is powerfully activated by Pluto.

Our commitment to this process is crucial. A golden age of Aquarius is not guaranteed without us learning the lessons presented by Pluto in Aquarius and overcoming the apathy and distraction institutionalised by mainstream society that could derail us. The lessons of Pluto in Aquarius will be with us until 2043. It teaches us how the power of technology may be misused or abused if we don't fully embody and embed our spiritual values into our personal lives and societies to guide our actions. Pluto in Aquarius specifically calls upon humanity to empower itself collectively through a community of light. That means you and me and those who stand with us. To date, humanity has seen too much of its collective power disowned and given away to leaders who wish to find more ways to control us with technology and psychological programming, as evidenced by the development of smartphones, social media, Agenda 2030, the Fourth Industrial Revolution, and the continual manufacturing of the perception of global threats – all of them aimed at establishing a global digital control grid (see Issue 1 for more details).

Between now and 2043, we have a window of opportunity to change the course of history, set ourselves free, and build a world of light. And it needs our full participation. As previously mentioned, in the chart for Pluto's ingress into Aquarius this year, Mars is in Capricorn and trining Jupiter and Uranus, representing the responsible and wise use of will to co-create the Aquarian Awakening in place of the control grid. A trine here is encouraging – we can do it if we apply ourselves. However, our best chance will be before 2030 while Uranus and Neptune are in aspect with each other and Pluto.

Today, we can actively contribute to this transformation of collective consciousness by forming groups and networks committed to building spiritual communities founded on spiritual values, such as love, peace, freedom, and compassion. Enlightened communities where we can recover from the takeover of our consciousness and reconnect with our true spiritual nature and the magic of life. To empower yourself for this task, meditate and cultivate a strong connection with your spiritual light on a daily basis and ground it into your every physical action. The more you stay present in your light, the more you will be able to transmute any resistance to embodying your light and playing your part in the Aquarian Awakening. Consider the role you might play in 2025 and 2026, and what you need to do to prepare for this. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?

SUMMER SOLSTICE MEDITATION, 20 JUNE 2024

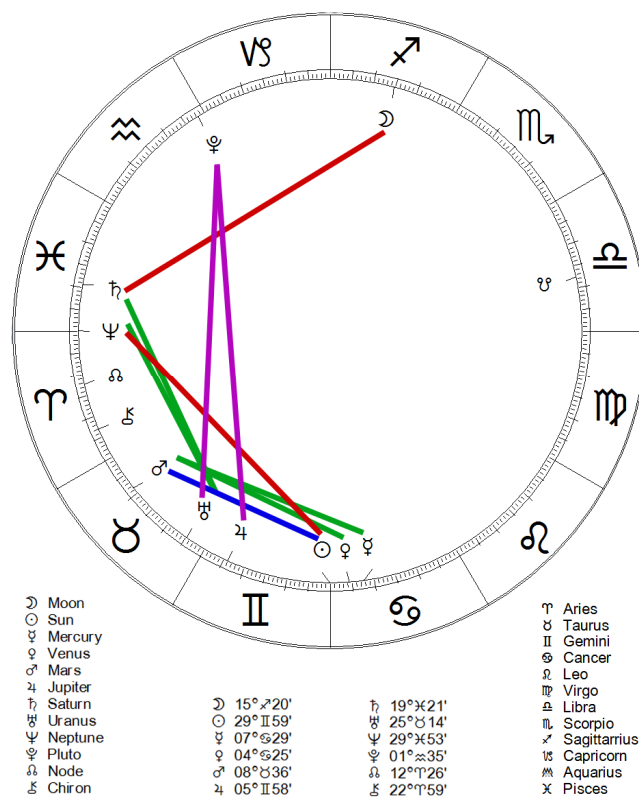

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

We are being called once again to gather as one and hold the light to help anchor in the true Aquarian Age, which is characterised by a conscious, awakened humanity that honours all life and the spiritual unity of all things. Now is the time to come out, meet, network,

and co-create new communities of light. We are the ones we have been waiting for!

In the Solstice chart, the Sun enters Cancer, with the Moon, the ruler of Cancer, in Sagittarius (higher

Solstice, 20 June 2024

wisdom and truth) and squaring Saturn in Pisces (grounded spirituality and the removal of spiritual blocks). This Moon-Saturn square represents the challenge to ground the wisdom and vision of the greater truth into our physical lives and social structures, while overcoming the blocks, illusions and naivety that sabotage this. Saturn itself is sextile Uranus in Taurus, which helps to break up the blocks, release unproductive attachments, and realign our physical and social structures to the greater truth. Of course, we must commit to this process with fully embodied spirituality in all aspects of our lives, including the society we choose to participate in. The purpose of Uranus in Taurus is to release us from the attachments to the material systems we have been embedded in that hold us back.

The Solstice Sun forms an interesting set of aspects. The conjunction of Sun to Venus and Mercury in Cancer helps us to cocreate the embodiment of spiritual wisdom through heart-based spiritual community. Interestingly, Venus and Mercury both form a sextile to Mars in Taurus, while the Sun forms an exact septile to

it. A septile (not to be confused with the more common sextile), is a special aspect representing a radical shift of consciousness that compels collective action and orientation towards wholeness. Mars in Taurus is focusing Sun, Venus, and Mercury on the creation, gathering, and provision of resources for the Aquarian age (Uranus in Taurus) that empower the embodiment of our spiritual truth (Moon, ruler of Cancer, in Sagittarius square Saturn in Pisces). The Sun's exact square to Neptune in the last degree of Pisces leaves no doubt that the time is now and that we now need to embody and shine our spiritual light to honour ourselves and the greater whole.

Uranus and Neptune are, of course, sextile, promoting the collective spiritual awakening that this newsletter is empowering and celebrating. A sextile from Uranus to Saturn in Pisces urges us to break through our illusions and realign our physical structures to serve the Aquarian vision, while a trine from Uranus to Pluto in Aquarius confirms the message and seals the deal. Pluto in Aquarius is of course a major player in the Aquarian Awakening. Pluto's trine to Jupiter in Gemini supports the understanding and communication of the Aquarian values.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at 12.30pm for a meditation and empowerment ceremony as part of a solar wave of light to mark the solar zenith at 1pm. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and how to take steps to create communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones. Bring friends, crystals, poems, songs, instruments, circle dances, and

your love and light! Let us bring back the Love, Light, Magic, and Beauty.

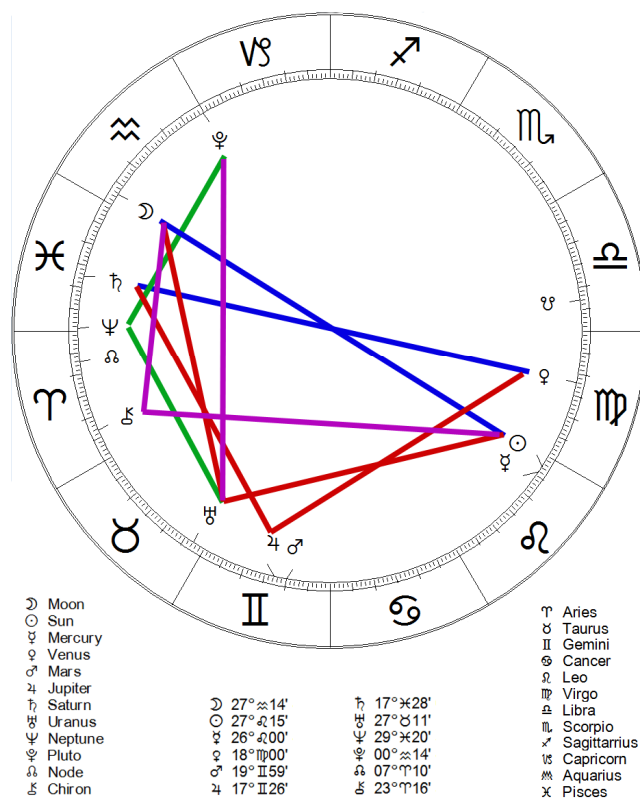

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The exact moment of the Solstice is 21.51 UK time, so please also link up in meditation at this powerful time, wherever you are. If you wish to join me for this, let me know.

AQUARIUS FULL MOON ACTIVATION, 19 AUGUST 2024 (AQUARIAN TRANSFIGURATION DAY)

This is a very important Aquarian Activation. Not only

Aquarius Full Moon Chart, 19 August, 2024

is the Full Moon in Aquarius, but also it will **exactly square** Uranus, the ruler of Aquarius, forming with the Sun an **incredibly powerful, exact T-Square**, one of the most powerful we will see. Uranus in Taurus urges us to let go of our unproductive material attachments and to align our physical forms to the highest expression of the Aquarian Age so that they reflect collective spiritual self-realisation. As Uranus will be in Taurus until 2025-26, we have a window of cosmic support lasting a year or two to fully master this lesson as conscious, spiritually grounded beings. By 2026, we need to be

completing the alignment of our physical forms to the Aquarian Age. This is a once-in-a-lifetime opportunity and the need for our solid practical commitment to bringing in the Aquarian Age, no matter what, is very real and of the highest priority not just for our generation, but for all the generations that will follow. The cosmic support is going to be there for us to do this, and the day of this Aquarian Full Moon, what I am calling the first Aquarian Transfiguration Day, is going to be a crucial time to meditate, align, and empower the positive timelines with seeds of higher consciousness and spiritual energy.

To directly support the power of this Aquarian T-Square, Chiron, the Wounded Healer planet, will sextile Moon and trine Sun from its position in Aries. The message of Chiron in Aries is all about healing and empowering the will, which involves the release of apathy, numbness, and victim consciousness. It's time to escape the matrix and embody our inner warrior of light in dedication to the Aquarian Vision. In short, we are the ones we have been waiting for. Of course, this requires big healing, which we are all in need of having been born into an abusive and disempowering society that wants us to disconnect from our true spiritual nature. But our participation in the solution will be the healing process.

The Uranus-Neptune sextile will be warming things up at 2 degrees of orb, and Pluto will sextile Neptune and trine Uranus, creating a dynamic equilibrium of the three planets in this cosmic triangle, which will be with us for the key Aquarian Activations of this decade. The theme of this cosmic trinity is, of course, the Aquarian transformation of collective consciousness and society, and we stand among the key players of light called into sacred, devoted action.

Astonishingly, on this Full Moon activation day, Jupiter in Gemini will also be **exactly square** Saturn in Pisces at the time of the Full Moon, calling us to expand the mind beyond illusion so that we awaken to and fully embrace the true divine nature of reality. This expansion of consciousness is all about activating the antahkarana (the rainbow bridge between the lower self and higher self) and anchoring our light bodies into physical form as we integrate spiritual light into the physical world to regenerate and transform it into a higher octave of expression. Jupiter's close square to Venus in Virgo as well completes another powerful T-Square, which encodes the archetype for collective spiritual service through the enlightened mind. Jupiter in Gemini is the focus and resolution of the T-Square. It

represents the expansion of consciousness that will carry us forward and it represents the archetypal teacher of wisdom, which we embody as light-filled communicators dedicated to world service. To activate Jupiter further, Mars joins it in a beautifully synchronistic conjunction, with both planets also at the same declination. This is very much a moment for expanding the mind and understanding and accepting our role as cocreative Aquarian light bringers, while seeding the collective archetypes for an awakened humanity. Remember that you are more powerful when present in your spiritual being.

The exact time of the Full Moon and the main focal point for meditation is 19:26 UK time. Please join us in a global meditation linkup at 19:00 UK time for at least 33 minutes. I will be leading a meditation group at Avebury Stone Circle for this time. If you would like to attend, you are most welcome and can email me directly at aquariantransfiguration@protonmail.com to let me know, or just turn up before 19:00. Otherwise, please join distantly, preferably from a sacred site or place of power, and connect in spirit as you contemplate the resolution of the astrological themes and messages and bring in the light.
