

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the fourth issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

After a brief retrograde into Capricorn from September, Pluto moved back into Aquarius on 19 November to finally stay until 2043. The stage is set for the Aquarian lessons to unfold and the Aquarian Vision to be empowered. Pluto in Aquarius is representative of deep social, technological, and spiritual transformation, and requires the wisdom of higher consciousness for us to navigate its depths and stay on a positive timeline.

Pluto is currently in an opposition to Mars that has been in effect since October 2024 and will continue until May 2025, which is focusing us on the right use of will, and in particular how this relates to collective power. So far, we have seen the following events unfold during this Pluto-Mars opposition:

- Apocalyptic floods in Spain with pushing of the Global Climate Action Agenda (3 November).
- Intense flooding in the UK with pushing of the Global Climate Action Agenda (22-25 November).
- United Nations COP 29 Climate Change Conference (11-22 November) in which developed nations agreed to provide \$300 billion per year to poorer nations to fund the Global Climate Action Agenda (Agenda 2030), which includes the implementation of a smart grid and smart cities.
- Trump wins the US Election (5 November) and appoints Elon Musk (who wants to merge human consciousness with AI and put 40,000 satellites into space to connect the whole world through the Internet) and Robert F. Kennedy Jr (an anti-vaccine and anti-pharmaceutical advocate who wants to eliminate pesticides and has already stated that the 'climate crisis' narrative is being pushed by the Elite).
- Ukraine (United States and UK) fires the first long-range missile into Russia (19 November), provoking threats of nuclear war from Putin, and Putin fires back an experimental hypersonic missile into Ukraine.

All these events embody the lesson of collective power and are very Aquarian. The coincidence of shocking weather events after two devastating hurricanes hit the United States in time for the UN's Climate Change Conference deal that enables the whole world to implement the control grid in the name of 'climate action' (reacting to a perceived global threat) cannot be overstated. Trump balances two opposing Aquarian forces in his Cabinet (Musk and Kennedy), effectively mirroring the dynamics in the collective consciousness. Interestingly, Trump has Uranus, ruler of Aquarius, conjunct his Gemini Sun and exactly trine his Jupiter in his birth chart.

As we approach the end of the year, we reach the time of the Winter Solstice, where Saturn will be prominent within a Grand Cross that teaches us how wisdom and healing can come through us once we

open the mind and clear the overlay of conditioning and programming to live with an empowered spiritual perspective. This is the key to manifesting the timeline of the positive light-filled Aquarian Vision. Not just seeing it, but living it. And when we reach out to others in action, we ground it more fully.

Before Mars completes its opposition to Pluto in Aquarius, the Full Moon on 13 April 2025 will mark the opening of the **World Expo** and will oppose Chiron, the Wounded Healer, in Aries, the sign of Mars. The World Expo is the same event that brought the Industrial Revolution and the telegraph to the world in 1851 when it was known as the Great Exhibition. Subsequently, each exhibition has unveiled something technological that is intended to change the world, and therefore should be noted for its Aquarian theme as well as for revealing the global agenda unfolding. In 1939 it was the television. In 1992 it was the Internet and mobile phone. In 2025 it will be AI and smart cities.

Technology alone will never realise our potential. If we can live with sufficient wisdom and self-empowerment to not be swept into the technological prison I call the 'control grid', we will do well. But the real advancement comes not from technology but from awakening to and living from our spiritual light, so that our every action honours the highest divine values and inspires them in others as we unite in one heart. This is the ultimate message of Saturn in Pisces, and it will dominate the astrological themes of the Winter Solstice on 21 December.

The spiritual awakening at the heart of the higher octave of the Aquarian Age is occurring, but in a challenging global environment. It can be tracked by the Uranus-Neptune sextile (see Issue 1 of this Newsletter), which has yet to become exact this time round. Last occurring in the 1960s, when it brought in major spiritual awakening, it will finally become exact in August 2025, at the time of the next Aquarian Transfiguration Day. The Uranus-Neptune sextile is currently separating as Uranus is retrograde, but from the end of January onwards, it will be applying. When Uranus enters Gemini in July 2025, we will start to experience the mind more clearly being awakened. Until then, , Uranus in Taurus is helping us to release the attachments that stand in the way of our spiritual development. These can be external attachments to such things as technology, social media, and social approval, or they can be inner attachments to patterns of thinking or behaving that we may not even be conscious of.

To better navigate the next few months, expand your consciousness and see what attachments you can release to develop spiritually and prepare for the Aquarian Activations. Meditate daily to expand your consciousness, and develop a strong focus within your spiritual centre to empower yourself. Explore how you may hold back your spirituality (Saturn in Pisces).

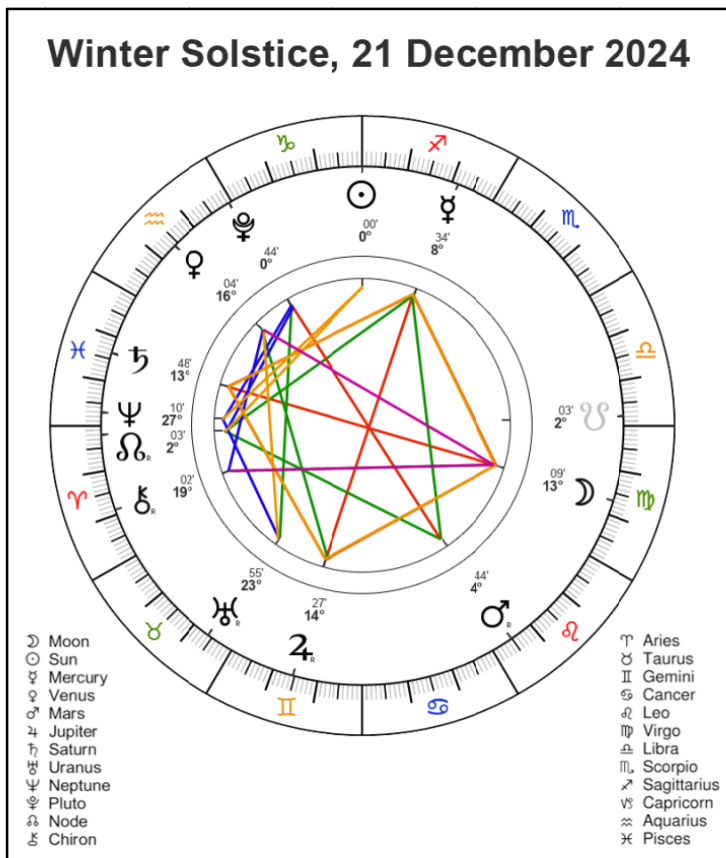

WINTER SOLSTICE MEDITATION, 21 DECEMBER 2024

The Winter Solstice occurs when the Sun is furthest south and enters Capricorn. It represents a time of renewal as the Sun is 'reborn' on the shortest day of the year. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

With Sun entering Capricorn, there is renewed focus on our responsibility to embody our light into the physical structures of our individual and collective lives. Saturn, ruler of Capricorn and the Winter Solstice, is in Pisces, showing us that there is healing to do around the repression of our spirituality that has resulted from our adaptation to a materialistic society where those who govern do not acknowledge our spiritual nature or needs. The negative expression of Saturn in Pisces is dissociation, numbness, and

illusion, which are side effects of adapting to a spiritually repressive society. The focus of our Winter Solstice meditations will therefore be on grounding light into our worldly structures, but also healing the repression, dissociation, numbness, and illusion. This is necessary for us to ground the Aquarian Vision.

The standout feature of the Winter Solstice chart is the **Grand Cross**, formed by the opposition of Saturn to Moon squaring the opposition of Jupiter to Mercury.

The key aspect of this Grand Cross is the **Jupiter-Saturn square** that I mentioned in Issue 3 of this Newsletter. It represents the challenge to integrate the energies of Jupiter (planet of growth) and Saturn (planet of responsibility). The Jupiter-Saturn square was exact on the 2024 Aquarian Transfiguration Day and is still in effect until July 2025. It will be exact two more times: 24 December 2024 and 15 June 2025. It is asking us to look at how we can move beyond our blocks to embodying our spirituality (Saturn in Pisces) by opening our mind, clearing illusions, and grounding our higher consciousness (Jupiter in Gemini). Think of this Jupiter-Saturn square as the lesson of anchoring our expanded, spiritual consciousness (the Aquarian Vision) into new world structures.

Moon in Virgo opposite Saturn in Pisces represents the urge to serve the spiritual replenishment of the Earth, but it will be hampered by the dissociation and cognitive dissonance that closes our spiritual channel off or thwarts it from grounding sufficiently to transform the world. The solution is to open the mind and be fully present and committed to the service. The Moon also sits at the focal point of a **Finger of God** alignment pattern formed with Chiron in Aries and Venus in Aquarius, and activated by Saturn. Chiron in Aries is the wound to our will to act (see Issue 3 for more on this), while Venus in Aquarius is spiritual community and enlightened collective consciousness. To sum up the Finger of God, by activating the positive expression of Saturn in Pisces (which is embodied spirituality) with an empowered will and the support of spiritual community, we will successfully serve the spiritual replenishment of the Earth.

Mercury in Sagittarius is the final planet in the Grand Cross. It represents the communication and understanding of wisdom. Mercury and Jupiter are in each other's signs, indicating a very special focus on higher consciousness. Can we expand our consciousness in meditation to more fully integrate the spiritual truths, and then communicate these spiritual truths in world service? Mercury itself forms a **Grand Trine** with Mars in Leo and North Node in Aries. A Grand Trine can be thought of as a gift for manifestation. Mars in Leo is leadership and empowered self-expression. North Node in Aries is the karmic purpose of asserting the will. In summary, the Grand Trine can help the Grand Cross to activate in the most beneficial way by anchoring the higher values and higher wisdom through empowered action.

Pluto in Aquarius is supporting us to make collective change based on the spiritual awakening of the Uranus-Neptune sextile that is with us until 2030. It brings us face-to-face with our Aquarian shadow, which is the misuse or unconscious use of technology. With AI and a digital control grid being set up, the stakes are raised more than ever due to the risk of us giving our power away to them and ending up in a technological prison (Pluto opposite Mars). Pluto's sextile and trine to the Uranus-Neptune sextile brings a unique opportunity for us to channel the higher expression of Pluto in Aquarius and to birth the true Aquarian Age by building spiritual communities. But it requires our full consciousness and commitment to spiritual service. Practically, we need to show up and be there for each other at this momentous time. While the Aquarian vibrations may be masked by the repressive energies circulating the planet at this time, it doesn't mean they are not there and waiting for us to channel them.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at Avebury Stone Circle at **09.00am** for a meditation that will culminate with the exact time of the Solstice at **09.21am**. We will complete the day with a second meditation at **12pm** for the solar zenith. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will hold the Aquarian vision, contemplate the astrological themes mentioned above, hold the light for their resolution, and discuss ways of holding the light together for the Aquarian Awakening over the coming years and creating communities of light.

Avebury Stone Circle is the largest megalithic stone circle in the world and is full of timeless mystery, magic, and power that blends with us in meditation, helping us to open up and receive the highest frequencies of light. All are welcome. We will meet in the Sun Circle. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk left and find us in the stones to the left. Bring friends, crystals, poems, songs, instruments, circle dances, and your love and light! Let us bring back the Love, Light, Magic, and Beauty.

If you cannot make the event, please link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

FOOD FOR THOUGHT

Consider what role you can play in 2025 for grounding in the Aquarian Vision. How can you anchor light into the physical structures of the world? What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision? What groups and networks can you form? How will you guide and assist others in preparing for the Aquarian activation?
