

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the fifth issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

Those of us who have heard what is happening around the world at the moment will detect the calling card of Pluto in Aquarius, a transformational shakeup of the status quo. Not surprisingly, the key actors are Trump, who has Uranus conjunct Sun and Uranus opposite Moon in his birth chart, and Musk, who has Uranus square Sun and Uranus opposite Chiron in his birth chart. These material events represent the lower, unconscious expression of the Aquarian energy, filtered through reactive, ego-dominant players. The manner in which leaders across the world are trying to manipulate war and conflict and grab land is being exposed and will inevitably be a wakeup call to many who will finally see the corruption at the heart of the system they have adapted to. Hopefully, the World Expo that opens on the Full Moon of 13 April 2025, displaying the lower expression of the technological manifestation of the Aquarian Age (see Issue 4 of this Newsletter), will also be exposed for what it is: an unacceptable blueprint for a 'control grid'.

The real change is taking place on the subtle levels and is barely beginning. As the Uranus-Neptune sextile moves into orb again from the March Equinox and builds up to be exact in August and November 2025, we can expect spiritual awakening to increase. And that is where we can stand ready to help midwife the physical changes that are required to bring in the spiritual alignment represented by the Uranus-Neptune sextile. In response to this, I can now announce the dates for the **2025 Aquarian Transfiguration Global Meditation Linkups: 28-29 August and 20 November**. For more on this, visit AquarianTransfiguration.com. Your help in networking this information is appreciated and I hope that some of you will organise meditation events for the linkups.

Another key astrological event to be watching is the Saturn-Neptune conjunction in Pisces. This conjunction, which represents the spiritualisation of matter, is of historic importance. It was last exact on November 1989 when the Berlin Wall and Iron Curtain fell. It will next be exact on 20 February 2026 and is worth having front seats for!

Saturn will begin its conjunction with Neptune in March 2025 and, fittingly, Neptune will enter Aries on 30 March 2025, preparing for a fourteen year stay there, giving us the important message to spiritualise our will as part of the next cycle of our spirituality. This entry of Neptune into Aries occurs just 24 hours after the Solar Eclipse in Aries on 29 March at 10:48 UTC. This synchronicity couldn't give us a clearer message! When Uranus and Neptune are exactly sextile in August 2025, the Saturn-Neptune conjunction will be within one degree of exactitude, a closeness sufficient to profoundly trigger the collective consciousness as part of the Aquarian Awakening.

The highest expression of the Saturn-Neptune conjunction is the dissolution of limiting structures and the grounding of spirituality into physical expression in a manner that honours our essential unity. In 1989, there was a unification of Germany and a dissolution of the Soviet Union, but the spiritual consciousness was not sufficiently materialised to transform our collective lives to fully embody our higher spiritual truths and values. From August 2025 to February 2026, with Uranus and Neptune sextile and Pluto in Aquarius, there is real opportunity to spiritualise our material lives and create the new spiritual structures for living. Can we respond to the Aquarian activations and our inner spiritual calling with embodied action for the spiritual ideal to materialise fully?

It is no coincidence that we have been seeing the 'planetary parade' this year, where all planets have been 'visible' across the night sky at the same time. This rare celestial event, which is in effect until the end of February, is symbolically telling us to take important note of the cosmic events coming up and to remember the bigger picture of things.

To better navigate the next few months, expand your consciousness and see what attachments you can release to develop spiritually and prepare for the Aquarian Activations. Meditate daily to expand your consciousness and develop a strong focus within your spiritual centre to empower yourself. Explore the ways you have been holding back your spirituality (Saturn in Pisces) and make amends.

SPRING EQUINOX MEDITATION, 20 MARCH 2025

The Spring Equinox represents a time of balance and awakening as the Sun shines directly over the equator and everything in nature is coming alive. This is a time to pause and reflect on where we are at and to rededicate ourselves to being fully awake and shining our light as we embody our path of light.

With the Sun entering Aries, the focus is on how we use our energy and will for manifestation and action. The ruler of Aries, and therefore the Equinox, is Mars, which is in Cancer. Mars is within one degree of an exact square to Chiron in Aries. The challenge is to heal the use, non-use, or misuse of the will by owning our spiritual power and in particular dedicating our will to higher, compassionate action. It also shows the need to

heal through our actions. The trine of Mars to Saturn and North Node in Pisces indicates an opportunity to spiritualise our will and calls us to put our energy into grounding spiritual light into physical situations and life structures.

The closest aspect on the Equinox will be the Sun's conjunction to Neptune in Pisces (less than half a degree of separation). Along with the Sun's conjunction to North Node in Pisces (representing our path of evolution), and Saturn in Pisces (representing the spiritualisation of matter), the message is clear to integrate the spiritual into the physical with our actions. With the Sun also conjunct Venus in Aries, there will be a cluster of planets at this time dedicated to spirituality in action. Venus represents relationships, and the lesson here is to relate in ways that embody our spiritual light and anchor in the Aquarian Vision. What networks of light and communities of light can we form with others?

From the March Equinox, Uranus and Neptune will begin to move into orb in preparation for their first exact sextile in August and their second exact sextile in November. This will bring a new opportunity for global spiritual awakening, which we can empower. We can therefore see this Equinox as a pivotal moment for consecrating our will to anchor the Aquarian energies into physicality. A key test is to ask ourselves the following:

In this moment, with these actions, am I investing my energy into that which serves my spiritual awakening, the realisation of my full spiritual potential, and the manifestation of the collective Aquarian Vision?

When applied consistently and with reverence, this test will help free us from unproductive attachments and illusions.

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at **Avebury Stone Circle** for two global meditations to bring in the Light for the world. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk immediately left and find us in the stones, near the obelisk marker stone.

Join us at **8.30am** for the first meditation, when Pluto in Aquarius is exactly above us on the Midheaven to hold the Aquarian power, Jupiter rises in the east to bring in wisdom, and the Sun enters Aries to mark the exact moment of the Equinox at 9.02am. We will anchor the light in meditation and honour the fullness of our spiritual potential at this time, empowering the positive timeline of our beautiful Earth awakened in the light. We will complete the meditation with a heart empowerment and sacred sound ceremony.

Join us at **11.30am** for the second meditation and divine empowerment ceremony as part of a solar wave of light to mark the solar zenith at **12 noon**. We will form a pillar of light together and anchor the solar energy and our light-filled and love-filled intentions deep into our beings and down into Mother Earth in honour of the light and the sacredness and oneness of all life. We will also discuss ways of holding the light together over the coming years and how to create communities of light. If you have a drum, singing bowl, or other instrument, bring it with you!

All are welcome. Join us for one meditation or both meditations. Bring friends, symbolic objects, crystals, poems, songs, musical instruments, circle dances, and your love and light! Let us bring back Love, Light, Magic and Beauty to Mother Earth and our own hearts.

For those who cannot make the event, please gather friends and link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

FOOD FOR THOUGHT

Consider what role you can play in 2025 for grounding in the Aquarian Vision:

- How can you anchor light into the physical structures of the world?
- How can you spiritualise your will?
- What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision?
- What groups and networks can you form?
- How will you guide and assist others in preparing for the Aquarian activation?
