

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the sixth issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

The World Expo opened on the Full Moon of 13 April 2025 with the Aquarian theme 'Designing Future Society for Our Lives' to showcase a vision for the *lower* expression of the technological manifestation of the Aquarian Age (see Issue 4 of this Newsletter). The expo has so far passed a million visitors, but has still got less attendance than expected, which is a promising sign that humanity may be looking for something more than a technology that is being used against us as part of the control grid.

The push for the digital control grid is gaining momentum as key deals are being made around the world to build colossal data centres for the AI infrastructure. Despite bandying around the ingenuous term 'sustainability' (this is in fact a codeword for control), these data centres are so colossal in their energy consumption that

they are far from sustainable and nuclear power plants are having to be built specifically to power them. Predictable calls from the World Economic Forum are going out to regulate the emergence of the AI infrastructure within a global digital framework. At the same time, we are hearing another infamous voice from within the elite calling for a radical reset on climate change because Agenda 2030 isn't working fast enough. The proposed solution? An AI-driven technological infrastructure that makes use of SMART grids, combined with the genetic engineering of crops and the use of advanced technology to pull carbon dioxide out of the air. Like the blotting out of the sun with chemtrails or aerosols, which was publicly given the go-ahead in April 2025 by the deranged UK Government, such technological solutions betray a force behind them that is clearly anti-life.

All of the above portray the manifestation of the lower octave of Pluto in Aquarius, meaning the unconscious and lower vibrational embodiment of Aquarius that seeks to control humanity technologically in the absence of heart-centred, spiritual wisdom. The wisdom acquired from higher states of consciousness is necessary to ground the Aquarian energies and anchor in the enlightened Aquarian Age that manifests a connected, spiritually awakened humanity.

At the time of this June Solstice, the Uranus-Neptune sextile will be within 3 degrees of exactitude as it builds up to be exact in August and November 2025 when the **2025 Aquarian Transfiguration Global Meditation Linkups** will occur. We can expect spiritual awakening to increase and we can make use of the potential of these times to more fully align and awaken spiritually and take spiritually grounded action to assist this process for ourselves and others. Watch out for any negative world events that are orchestrated in an attempt to scupper humanity's evolution of consciousness at this time, but know that the power of the Light is infinite.

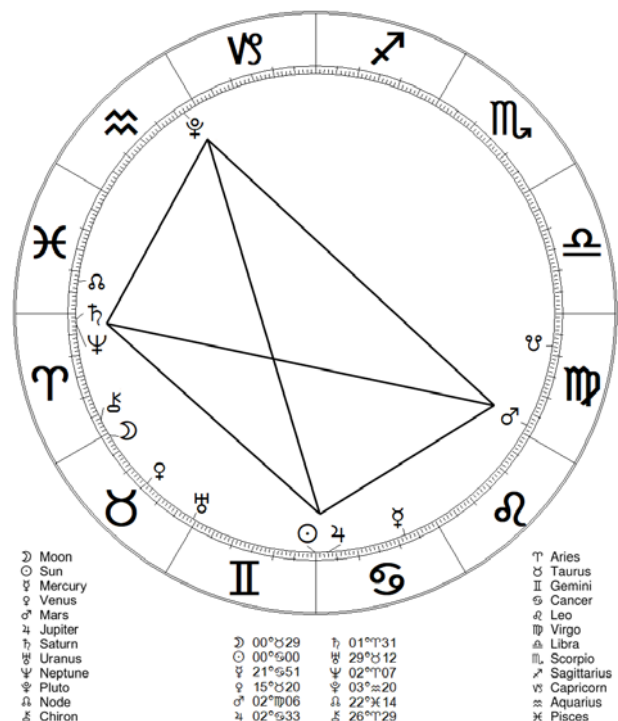

To better navigate the next few months, expand your consciousness and see what attachments and resistances you can release to develop spiritually and prepare for the Aquarian Activations. Meditate daily to expand your consciousness and develop a strong focus within your spiritual centre to empower yourself. **Join us in the Solstice Meditation (21 June) and the Aquarian Transfiguration Global Meditations (28-29 August) to cocreate a synergy of heightened spiritual consciousness that will uplift the collective consciousness.**

SUMMER SOLSTICE MEDITATION (21 JUNE 2025)

The Summer Solstice represents a time of maximum light as the Sun is furthest north on the longest day of the year in the Northern Hemisphere, reaching the height of its power. This is a time to pause and reflect on where we are at and to rededicate

ourselves to being fully awake and shining our light as we embody our path of light.

With the Sun entering Cancer and conjunct Jupiter, the focus is on how we can expand our capacity to care for the greater good of ourselves and others. With the Moon, ruler of Cancer and the Solstice, in Taurus and conjunct Chiron, this suggests that providing resources for enlightened living and the healing of the will are key to this.

The theme of Chiron in Aries (discussed in Issue 3 of this Newsletter) highlights the healing required for us to align our will to our spiritual values and take action to birth in the enlightened Aquarian Age. Passivity and apathy have been deliberately programmed into us with technology to render us docile and promote our absorption into the control grid, but the new activation of Aquarian energies at this time will support us breaking free, providing we consciously align to them and take

responsibility for healing any karma of self-sacrifice and victimhood we may have. This theme is echoed by the Sun and Jupiter's joint square (90 degree aspect) to the Saturn-Neptune conjunction in Aries (sacrifice and oppression of will), the Sun and Jupiter's joint quincunx (150 degree aspect) to Pluto in Aquarius (control through technology), and the Sun and Jupiter's joint sextile (60 degree aspect) to Mars in Virgo (self-sacrifice).

Sun and Jupiter's sextile to Mars and the quincunx of all three planets to Pluto in Aquarius form a Finger of God alignment pattern. A Finger of God, also known as a Finger of Fate, is an aspect pattern representing the need to resolve long standing karmic patterns for a divine purpose. Here, those karmic patterns are to do with harnessing our compassionate will to cocreate a spiritually awakened world.

A second Finger of God is also present at the Solstice and is formed by the sextile of Pluto in Aquarius to the Saturn-Neptune conjunction in Aries and the quincunx of all three planets to Mars in Virgo. Its message is to activate our will to serve the collective spiritual awakening of humanity by grounding our awakened light into action. With Mars at the foot or outlet of the Finger of God, the key again is to release the programmed passivity and self-sacrifice, which is rooted in unconsciousness, unproductive, and unhealthy attachments to a spiritually repressive society. To break free, we require the spiritual self-empowerment that comes from our strengthened connection to our spiritual

selves through dedicated meditation and conscious inner alignment.

Interestingly, all points of the two Finger of Gods aspect the Uranus-Neptune sextile, which at the time of the Solstice will be within 3 degrees of exactitude. These are collective lessons timed to come to a head to facilitate the birth of the enlightened Aquarian Age through the new cycle of spiritual awakening.

Like the last Equinox, this Solstice is a pivotal moment for consecrating our will to anchor the Aquarian energies into physicality. A key test is to ask ourselves:

In this moment, with these actions, am I investing my energy into that which serves my spiritual awakening, the realisation of my full spiritual potential, and the manifestation of the collective Aquarian Vision?

There are now core groups who gather at sacred sites around the world to meditate on the Solstices and Equinoxes to hold the light for the planet and empower positive light-filled timelines in meditation. In the UK, we will gather at **Avebury Stone Circle** at 12.30pm for a global meditation to bring in the Light for the world. Walk through the gate that is to the right of the Elements shop (opposite the Red Lion pub), then walk immediately left and find us in the stones, near the obelisk marker stone.

We will anchor the light in meditation and honour the fullness of our spiritual potential at this time, empowering the positive timeline of our beautiful Earth awakened in the light. We will complete the meditation

with a divine empowerment ceremony as part of a solar wave of light to mark the solar zenith. We will also discuss ways of holding the light together over the coming years and how to create communities of light. All are welcome. Arrive in plenty of time as Avebury will be very busy and parking will be restricted. Bring friends, symbolic objects, crystals, poems, songs, musical instruments, circle dances, and your love and light! Let us bring back Love, Light, Magic and Beauty to Mother Earth and our own hearts.

For those who cannot make the event, please gather friends and link in distantly in meditation in your local area at the same time and we will be connected in the oneness of the light.

The most dedicated of you may also like to link up in meditation to mark the exact moment of the Solstice at 3.42am UK time.

AQUARIAN TRANSFIGURATION GLOBAL MEDITATION LINKUPS (28-29 AUGUST 2025)

Join us in these global meditation linkups to empower the Aquarian Awakening and transfiguration of collective consciousness. This is a time for people across the world to unite in spirit and hold a collective vision of universal love and peace, a time for raising consciousness and increasing our individual and collective spiritual awakening and committing to light-filled action.

The Aquarian Transfiguration Global Meditation Linkups invite you to awaken to and fully embrace the true divine nature of reality and to birth this new consciousness

into the world as we join together with each other in a community of light, seeding the collective archetypes for an awakened humanity.

Please dedicate your intention to the spiritual awakening of humanity and join us for 33 minutes in a global meditation linkup at **12.30pm UK time on 28 August** and again at **1.30am UK time on 29 August**. In your meditation, call upon the light of the divine source to be one with you. Hold the intention and vision for humanity to evolve by moving beyond limited ego patterning and choosing enlightened spiritual values and actions and embodying the highest expression of the astrological themes described in the astrology reading below. As you hold this intention and vision, send it out to humanity to receive with the divine light as guidance, intending that the world awakens and heals. Feel the response and sense the rising vibrations and transfiguration of consciousness as light spreads across the planet and world consciousness is raised.

In the UK, we will be holding a meditation gathering at **Avebury Stone Circle** for the first linkup at **12.30pm UK time on 28 August**. If you wish to join us, arrive in the stones at 12 noon and we will start the meditation promptly at 12.30pm. Otherwise, please join distantly from your own location, preferably in a group at a sacred site or place of power, and connect in spirit with sacred intent as you bring in the light for the world.

Uranus Sextile Neptune

During this global meditation linkup, Uranus, ruler of Aquarius and planet of awakening, and Neptune, planet of spirituality, will be exactly sextile for the first time since the 1960s (when spiritual awakening unfolded dramatically). This will be the first of five exact sextiles between 2025 and 2027 that will usher in a new phase of collective spiritual awakening, which we can empower as conscious channels for the light.

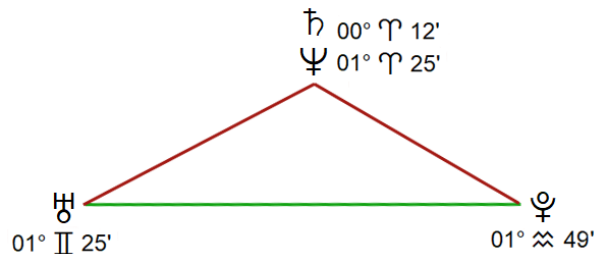

Aspects from Pluto in Aquarius

Pluto in Aquarius will be within half a degree of an exact trine with Uranus and an exact sextile with Neptune. With Pluto's transformational influence from Aquarius, in the same degree as the Uranus-Neptune sextile, the Aquarian Activation is all about the transformation of collective consciousness through spiritual awakening. Pluto is transforming consciousness and society, and by tying into the Uranus-Neptune sextile, this transformation is going to involve and require spiritual awakening. Pluto's integration with the Uranus-Neptune sextile is also key for us to steer the course of our collective timeline away from a technological prison, which the unconscious expression of Pluto in Aquarius threatens to manifest. Pluto's integration with the Uranus-Neptune sextile calls us to awaken to the bigger spiritual picture of life and our own spirituality. Only then can we fully

appraise the projection of our timeline and correct our course to be in alignment with the true spiritual nature of reality.

Aspects from Saturn conjunct Neptune in Aries

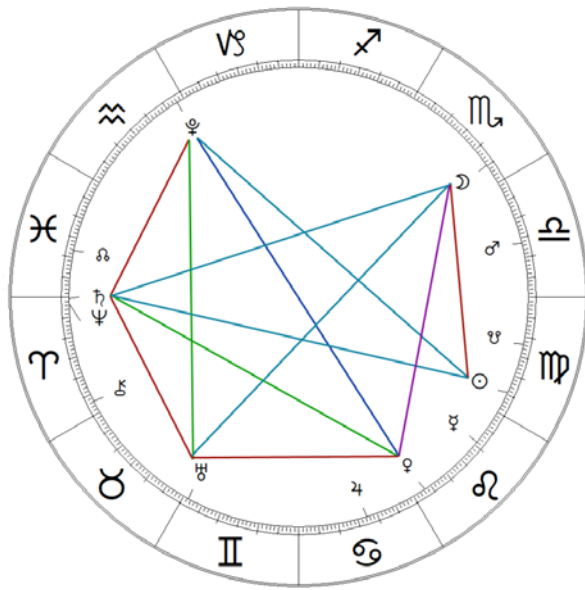

Saturn will be within one degree of an exact conjunction with Neptune in Aries. Saturn conjunct Neptune represents spiritual embodiment, and being in Aries, it is the perfect representation of spiritually embodied action. Being in close conjunction with Neptune, Saturn will also closely sextile Uranus and Pluto, bringing the issue of embodied spiritual action clearly into focus to shape the manifestation of the Aquarian Age. This is an extraordinary locking in of the outer planets to ensure the opportunities for Aquarian awakening are maximised:

The astrology chart

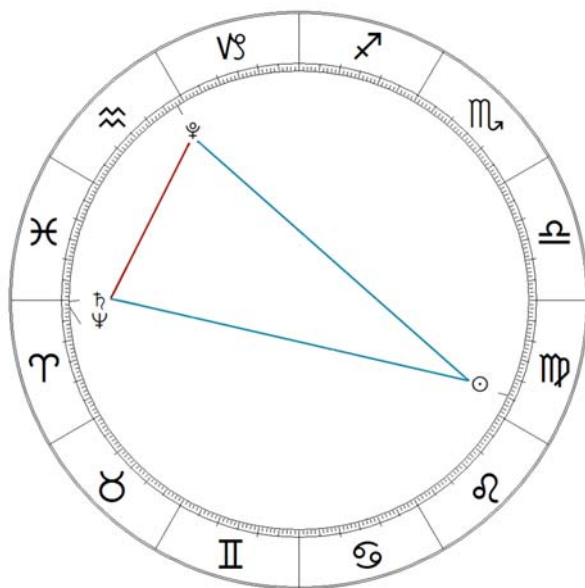

The astrology chart for the Aquarian Transfiguration Global Meditation Linkup of 28-29 August 2025 below shows the Uranus-Neptune sextile and its incredible activation by Pluto and Saturn. In addition, I have highlighted three Finger of God aspect patterns, all of which involve the Saturn-Neptune conjunction and activate and are activated by the Uranus-Neptune sextile. I have also highlighted the aspects of Venus to Uranus, Neptune, Saturn, and Pluto,

showing how vital our ways of relating are going to be to birthing the Aquarian Age.

Finger of God 1

The first Finger of God is formed by the sextile of Pluto in Aquarius to the Saturn-Neptune conjunction in Aries and quincunxes from these to Sun in Virgo:

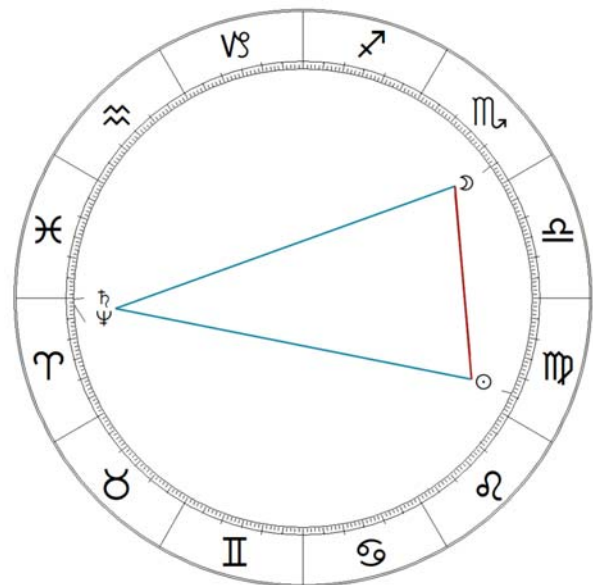

The message here is to integrate the positive expression of Sun in Virgo with the spiritual transformation of the sextile. Negative

manifestations of Sun in Virgo involve self-sacrifice, being lost in material drudgery, and worry. This is a pattern shared by a large portion of the human race as they sacrifice themselves to serving the material system. However, the positive manifestation of Sun in Virgo is practical service to a higher spiritual cause. The resolution of the Finger of God is the dedication of our lives to the practical implementation of the Aquarian Age. The Virgo worry about letting go of materialistic work patterns is something to be faced with trust and support as we all come together to commit to co-creating the Aquarian Age.

Finger of God 2

The second Finger of God occurs during the first linkup of August 28-29, when the Moon in Scorpio and Sun in Virgo are sextile and both form quincunxes to the Saturn-Neptune conjunction in Aries:

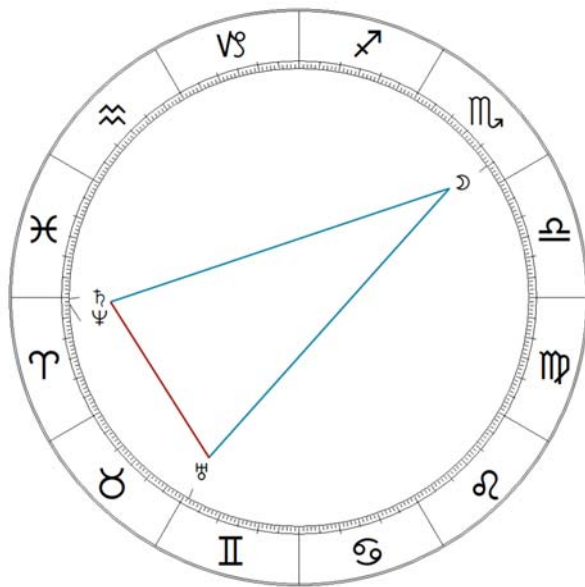

The Sun-Moon sextile represents healing, empowerment, and the ability to transform in service. The negative manifestation is

fear, control, and the giving away of power. The resolution of the Finger of God is to own our power and, with the support of others like us, to commit to the healing and recovery process of grounding our spirituality to honour the Aquarian Vision.

Finger of God 3

The third Finger of God also occurs during the first linkup of August 28-29. It is formed by the Uranus-Neptune sextile, Saturn's conjunction to Neptune, and quincunxes from these to the Moon:

The focus of this Finger of God is the Moon and how to harness its positive transformational power as we seek to embody our awakened spirituality to manifest the Aquarian Vision. The blocks to overcome include all the fears, illusions, and ego patterns that can sabotage our commitment to manifesting the Aquarian Vision. It's important to surrender the ego to the higher process of spiritual self-realisation and to trust in our spiritual support as we commit to cocreating the

enlightened Aquarian Age together. It's a process we may not be used to, which is why inner spiritual work and stable heart-centredness is so important to build the required trust to commit to the vision. With this in place, our integration of the transformational power of the Moon in Scorpio with the visionary energies of Uranus in Gemini and Neptune in Aries can overcome the blocks that hinder our individual and collective evolution. The lessons of Venus in Leo further clarify the personal transformation required. Fittingly, Venus aspects all the points of this Finger of God.

Aspects of Venus in Leo

The position and aspects of Venus describe what in our relationships is up for transformation. In Leo, this relates to how we express ourselves to another. The lowest expression of Venus in Leo manifests as ego-centred relationships. However, the highest expression of Venus in Leo manifests as light-filled relationships in which we relate from our spiritual selves. The evolution from self-centred relationships to spiritual, heart-centred relationships is critical for the emergence of the Aquarian Age, which is defined by values such as the spiritual interconnectedness of all things and spiritual community. This need for evolution is shown by the Venus-Pluto opposition (transforming relationships into their Aquarian manifestation), as well as by Venus's trine to Neptune and sextile to Uranus (awakening to spiritual relationships). As we deepen our understanding of relationships within a

spiritual context, we realise that we are ultimately all one. The integration of Leo and Aquarius is the integration of the personal and the collective. This reveals powerful wisdom to guide our evolution. One key insight is that ultimate personal transformation is inseparable from collective transformation, and vice versa. It is a dance between the two into higher degrees of synthesis. We can shine fully when we are part of a collective that honours our true spiritual nature and the essential unity of all things, and society will thrive when it connects, empowers, and honours spiritually enlightened individuals. With Venus in Leo opposite Pluto in Aquarius, we are being called to connect with others and put aside the limitations of the ego to form a new kind of spiritual community. This process is supported by the aspects of Venus to Neptune, Saturn, and Uranus. Venus trine Neptune is all about spiritual love—something that is painfully absent from today's mass society but is inherent in true spiritual community. Venus trine Neptune is about seeing ourselves and others as one, and holding all life as sacred in our hearts. This is the ultimate healing for relationships as the ego blocks (Saturn in Aries) are dissolved by our spiritual light (Saturn conjunct Neptune).

FOOD FOR THOUGHT

Consider what role you can play in 2025 for grounding in the Aquarian Vision:

- How can you anchor light into the physical structures of the world?
- How can you spiritualise your will?
- What alternative systems can you create or co-create that honour the highest potential of the Aquarian vision?
- What groups and networks can you form?
- How will you guide and assist others in preparing for the Aquarian activation?
