

AQUARIAN AWAKENING NEWSLETTER

<https://AquarianTransfiguration.com>

Dear Friends

Welcome to the seventh issue of the **Aquarian Awakening Newsletter**. The purpose of this newsletter is to guide you through the coming years of collective spiritual awakening with news of global meditation linkups, astrological alignments, and other initiatives dedicated to the Aquarian Awakening. I use the term 'Aquarian Awakening' to refer to the collective spiritual awakening associated with the activations of Aquarius and its ruler Uranus.

August saw the first exact sextile of Uranus and Neptune since the 1960s, priming the collective consciousness for spiritual awakening. We can expect more cases of people releasing their attachment to material illusions as a result, and more cases of spontaneous spiritual states. The portrayal of negative world events in the mass media and the stirring up of world conflict continue in an attempt to offset positive shifts of consciousness. The best advice is to unplug from this and clear ourselves from its effects. The magic of life is always present to the open spiritual eye.

For the collective momentum to build for positive world change, it's critical for already spiritually awakened people to show up and join together to anchor in the Enlightened Aquarian Age and serve as guides to those who are awakening. No matter what our personal circumstances or beliefs are about our worthiness or availability, the light within us is seeking to connect us as one and thereby foster the cocreation of a New Earth. Unintended focus on limiting ego states or entanglement in inner resistances shuts down this greater spiritual impulse because by definition it takes us out of unity consciousness and limits our capacity to ground the light through in collective action. Every one of us counts and is counted. Staying spiritually centred with meditation, and holding and empowering the vision of a New Earth, is key.

We have another four exact sextiles of Uranus and Neptune occurring between 2025 and 2027 that will provide the stimulus for further spiritual awakening within the collective consciousness, including the last one of this year on 20 November, the date of the next Aquarian Transfiguration Global Meditation Linkups. These sextiles provide a rare and powerful opportunity for us to get more in touch with our spiritual nature, power, and path.

To better navigate the next few months, expand your consciousness and see what attachments and resistances you can release to develop further spiritually and prepare for the Aquarian Activations. If you are in the UK, you are invited to join us in meditation at Avebury for the September Equinox and the November Aquarian Transfiguration Linkup.

AUTUMN EQUINOX MEDITATION (22 SEPTEMBER 2025)

The Autumn Equinox marks a time of balance, as the Sun shines directly over the equator. It invites us to pause and reflect on where we are, and to rededicate ourselves to being fully awake and embodying our path of light. It also marks a time when the Earth is most aligned with the interplanetary magnetic field, resulting in stronger solar activations within the Earth's magnetic field, which in turn influences the pineal gland to promote altered states.

In the Equinox astrology chart, the Sun enters Libra (balance and relationships), helping us to focus on how we can bring ourselves into balance and connect with each other in harmony. It perfectly aspects the three Aquarian Activation planets (a trine to Pluto, a trine to Uranus, and an opposition to Neptune), and these planets form together a Grand Trine/Kite focused for spiritual awakening and transformation.

Venus, ruler of the Equinox and significator for relationships, is in Virgo, sign of practical service, and sextiles Mars in Scorpio to form a Finger of God with the Neptune/Saturn conjunction. With the Sun, sitting between them at the Activation Point of the Finger of God, a configuration pattern is created to empower spiritual love in action. A key karmic lesson to clear is that of self-sacrifice and self-abandonment, for this takes us out of our spiritual power and

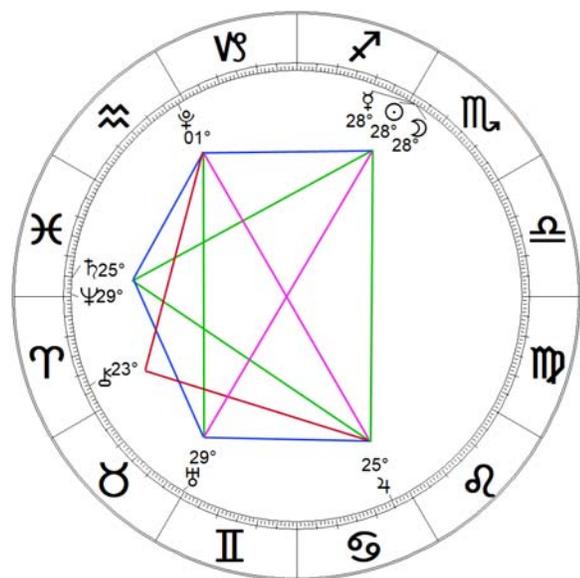

In the UK, we will be holding a meditation gathering at **Avebury Stone Circle** for the second linkup at **1.30pm UK time**. To join us, arrive in the stones at 1pm and we will start the meditation promptly at 1.30pm. Otherwise, please join distantly from your own location, preferably in a group at a sacred site or place of power, and connect in spirit with sacred intent as you bring in the light for the world.

AQUARIAN TRANSFIGURATION GLOBAL MEDITATION LINKUP ASTROLOGY READING

Uranus in Taurus Sextile Neptune in Pisces

During this global meditation linkup, Uranus, ruler of Aquarius and planet of awakening, and Neptune, planet of spirituality, will be exactly sextile. This will be the second of five exact sextiles between 2025 and 2027 that will usher in a new phase of collective spiritual awakening, which we can empower as conscious channels for the light.

Aspects from the New Moon, Sun, and Mercury in Scorpio

For the New Moon to occur at the same time as the Uranus-Neptune sextile is astonishing itself. But for it to also aspect the Uranus-Neptune sextile so closely at that time, within 1 degree of exactitude, once again reveals the hand of the Divine. New Moon in Scorpio focuses us on self-empowerment and the transmutation of the dense emotional body so that we can free ourselves from entrapment in material illusions and anchor in our spiritual presence. The New Moon also activates Pluto, Saturn, Neptune, Jupiter, and Chiron in a spellbinding orchestration of planetary energies designed to lift us out of the suffering of spiritless living and to transform our world into a New Earth. This calls for some deep healing and inner work to

release disempowering patterns, but we can more easily harness the power of the Divine Light at this time if we call upon it and surrender the ego to the spiritual process of Divine Self-Realisation. One of the most important of these patterns up for healing, shown by Pluto, ruler of Scorpio, in Aquarius, is that of giving our power away to a misaligned collective, which we could call mainstream society, mass culture, or the system. The New Moon is at the peak of its power during the first meditation linkup, and is not to be missed.

Aspects from Pluto in Aquarius

Pluto in Aquarius will trine Uranus and sextile Neptune. With Pluto's influence from Aquarius, the Aquarian Activation is all about the transformation of collective consciousness through spiritual awakening. Pluto is transforming consciousness and society, and by tying into the Uranus-Neptune sextile, this transformation is going to involve and require spiritual awakening. Pluto's integration with the Uranus-Neptune sextile is also key for us to steer the course of our collective timeline away from a technological prison, which the unconscious expression of Pluto in Aquarius threatens to manifest. Pluto's integration with the Uranus-Neptune sextile calls us to awaken to the bigger spiritual picture of life and our own spirituality. Only then can we fully appraise the projection of our timeline and correct our course to be in alignment with the true spiritual nature of reality.

Aspects from Saturn in Pisces

Saturn will be conjunct Neptune in Pisces. Saturn conjunct Neptune represents spiritual embodiment, and being in Pisces, it is the perfect place to channel spirituality into matter, but with a lesson to break free from illusion and escapism. Being conjunct Neptune, Saturn will also sextile Uranus and Pluto, bringing the issue of embodied spirituality clearly into focus to shape the manifestation of the Aquarian Age.

Aspects from Jupiter in Cancer

Incredibly, Jupiter in Cancer is almost exactly trine Saturn in Pisces, and aspects all other key planets, forming a Water Grand Trine with Sun/New Moon/Mercury in Scorpio and Neptune and Saturn in Pisces. Jupiter brings an expansive and catalytic influence to the mix, helping us to open our hearts and grow emotionally so we can be ready to ground in our full spiritual potential. The Grand Trine, which Jupiter is part of, is especially important for emotional healing and heart empowerment. It helps us heal our greatest wound and disempowerment: our sense of separation from the Divine.

Aspects from Chiron

Chiron is the Wounded Healer Planet. In Aries, it focuses on issues of wounding and healing to do with the use, misuse, and non-use of the will. It is particularly important for us to heal our ego wounds, clear ego imprints, and regain the power to take spiritual action in the world. Its two squares to Pluto and Jupiter form a T-Square alignment pattern in a beautiful exemplification of Divine Order. This is all about healing our entanglement in a robotic matrix, in which control is being ceded to social media, algorithms, and AI in a technological takeover of the planet. The healing actually comes from our spiritual hearts, and Jupiter in Cancer calls for us to become more fully heart-centred and to honour the values of love, compassion, and reverence so that they motivate us to honour all life in world service and to bring us back to the magic of life that has been eclipsed by technocracy.

The Mystic Rectangle

A Mystic Rectangle involves two sets of oppositions whose ends both trine and sextile each other, facilitating enlightened awareness for the resolution of polarity and the healing of conflict. The two oppositions are Jupiter opposite Pluto and Sun/New Moon/Mercury opposite Uranus. These poles form the points of the rectangle. The polarity and conflict to heal revolves around the displacement and subjugation of the individual as collective dehumanising forces take shape to control our lives due to our loss of spiritual presence and entanglement in illusion and misplaced comfort. The issue is that we are spiritual beings ultimately seeking the healing of our physical lives through light-filled collective living. But we need to awaken to this purpose and honour it. The key is to release entanglement in illusion, misplaced comfort, and personal addictions. A great awakening needs to occur for us to see this and to have the strength of presence to cut the unproductive attachments. In many ways, this Mystic Rectangle encapsulates the core dilemma the human race faces. The good news is that Uranus, the Awakener, is right there in the Mystic Rectangle to help us, at the time of the Uranus-Neptune sextile. But we still need to do the work, with the vision to guide us.
